System Information	Answers
Desired Storage tank Volume (gallons)	
Storage tank will be indoors? Or outdoors?	
Space constraints for tank (including installation)	
Space constraints for treatment equipment	
Desired Water Quality (see above)	
Do you require chlorine for sanitization (UV is standard)?	
Will the reclaimed water be used for flushing fixtures? Subsurface irrigation? Or both?	
What are the flow/head requirements for the re-pressurization pump(s)?	
How many re-pressurization pumps are desired (duplex (2) pump setup is standard)?	
If the reclaimed water is to be used for flushing fixtures is dye injection required by local codes?	

Available Utilities	Answers
Electrical (Voltage, Frequency, phase)	
Compressed air (psig, SCFM)	

Please list any additional comments here that would assist in engineering the proper design of the system:

Once all your responses have been entered, please make sure to email this questionnaire, to the email below. Ask for our MFG Sales team and someone will get back to you in 1 business day.
